## Recalculate!

Recalculating...now turn right. Recalculating...you went too far! Recalculating... I've heard those words a bunch just recently. I switched from my "maps" to Uncle Google on my phone. What a disaster! See, I'm a map kind of guy. I grew up with maps. Hey, need some place to go and you're unfamiliar with the area? Thomas Brother Guides will show you in the minutest detail how do go from point A to point B, successfully. No need to "recalculate!"

Just following the incredible event of Pentecost, the Apostle Peter summons a massive amount of courage and led by the Spirit of God gathers 100's of Jewish folks around him and tells them in so many words, "Recalculate", change your direction. "You think you know what God wants and how to get to heaven? But you've taken a major wrong turn. In fact, you all missed the turn-off about 1,500 years ago and you've been headed in the wrong direction ever since." "Now" Peter says, "Let me set you straight. You know the man you just murdered about 50 days ago? Jesus of Nazareth? I'm sure you were all there. King David spoke of Him a thousand years ago. After that the Prophet Joel wrote of Him too. The fact is Jesus was actually GOD in the flesh and you killed Him!!" Acts 2:37 says, "And when they heard this they were pierced to the heart..." (cut to the quick; majorly upset; devastated). What happened? About 3,000 of those devout Jews and other followers of Judaism recognizing they were "hopelessly lost and going in the wrong direction" recalculated. Sometimes when the Spirit of GOD speaks, and we're listening, He encourages us to recalculate. It saves a lot of time and effort.
