“And the sign said...”

John the Baptist was a pretty amazing man. But, he wasn't your typical next door neighbor. The way he dressed and his style of clothing was, how do you say, less than fashionable. Some say he was a vegan or a vegetarian. Although he did enjoy eating a bug or two. It's easy to get caught up in his "persona" and forget about why he was sent by God. I mean from the "get go" this man was cut out to follow God and relay God's message to the children of Israel. John's message was a message of repentance. "Change your ways people and if you don't there's going to be consequences!" That was his message just like the prophet Elijah a thousand years prior to John. But, the people wouldn't listen. God would send them sign after sign after sign. Instead of heeding God's word they'd put their hands over their ears, run in circles, and scream at the top of their lungs so they wouldn't have to hear what God was trying to tell them. God wanted them to listen. God's signs are all around us even today for us as individuals and as a nation. I guess the question is will we listen?
